

HAFCO Industrial

Ball Bearing Drill Chuck

Ø1 - Ø13mm

HAFCO Ball Bearing Drill Chuck Industrial

Chuck Key

Description

High precision drill chucks with ball thrust bearings to reduce friction in the closing mechanism and maximising drilling torque.

Golden Goose Brand

Benefits:

The Super Ball Bearing Chucks are equipped with ball bearings to reduce friction in the tightening mechanism and provide a better grip on the drill. Used for industrial applications that require the toughest machining conditions, where high accuracy drilling is a must (max. run-out .003" approx).

Features

- Precision jaws
- Accuracy (max. run-out .003" approx)
- Greater tightening force
- Less chance of the drills slipping
- Heavy duty for industrial use

Includes

- Chuck Key

Specifications

ORDER CODE	C295
Duty Type	Industrial - Heavy Duty
Type	Ball Bearing - Keyed
Capacity (mm)	1 - 13
Mount	JT6
Spare Chuck Key to suit	C290A
Nett Weight (kg)	0.62
