Description

The Hafco Metalmaster BG-10 Bench Grinder, manufactured in Taiwan, is a robust and reliable machine designed for industrial use. With a heavy cast iron frame, a powerful 1.3HP motor, and 250mm grinding wheels, this bench grinder is built to handle the most demanding tasks. Additionally, it features heavy-duty toolrests which are supported on both sides of the wheels, providing excellent support for the workpiece.

Features

- High quality robust construction, manufactured in Taiwan
- 1.3HP high powered motor rated at it's true output power
- Fully balanced motor providing smooth operation
- Non Voltage Return (NVR) safety switch, which stops machine from re-starting during workshop power failures
- Emergency stop switch
- Capacitor start and run provides instant startup and running power
- Overload protection
- Heavy duty tool rests with dust chutes
- Adjustable spark protection eye shields
- 1" x 8TPI spindle
- Ø250 x 38 x 25mm wheels (36-grit & 60-grit)
