Description

Precision Metric 1-2-3 Block Set of two (25 x 50 x 75mm)
 Designed for precision, strength, and versatility, these hardened and precision-ground 1-2-3 blocks are an essential setup tool for machining and inspection work. Supplied as a matching pair and manufactured to a tight $\pm 0.005\text{mm}$ tolerance, they deliver consistent, repeatable accuracy on every face.

Featuring 5 M10 x 1.5 tapped holes and 18 clearance holes, the blocks can be securely bolted together or to fixtures, making them ideal for milling, drilling, grinding, and alignment tasks. The set is supplied in a neat, durable plastic storage case, keeping the blocks protected, organised, and ready for use in the workshop.

Features

- 25 x 50 x 75mm
- Hardened & ground surfaces
- 5 Tapped holes with M10 x 1.5mm threads & 18 Clearance holes to allow two or blocks to be attached together
- Matched pair
- Precision ground
- Tolerance to 0.005mm
