

# METALMASTER

## Oxide Removal Wire Brush - 150mm

## METALMASTER Oxide Removal Wire Brush - 150mm

### Description

Components cut with oxygen have oxide layers on the cut edges. These dark layers are removed with the oxide brushes. The oxide brush is characterized by an innovative, multi-row arrangement of a specially developed wire set. The arrangement enables optimum oxide layer removal and ensures metallically bright cut edges with a long lifetime at the same time.

### Features

- Double row heavy duty wire brush
- Made in Germany

### Specifications
