## METALMASTER Straight Steel T-Dolly Set Small - 5 Piece SDS-5

Stacked On Top

Stand Shown With Optional Dollies

### Description

Straight T-dollies are used to form flanges and edges by hammering the metal with a hammer or slapper over the rounded part of the dolly. These dollies are smoothly finished to prevent damaging the material you are forming.

They're the same specialty straight T-dollies auto body shops and fabricators use to form and shape sheetmetal flanges and edges.
