

METALMASTER SDL-2

Straight Steel T-Dolly Set Large - 2 Piece

Polished Forming Surfaces for Consistent, Smooth Forming

METALMASTER Straight Steel T-Dolly Set Large - 2 Piece SDL-2

Stand Shown With Optional Dollies

Description

Straight T-dollies are used to form flanges and edges by hammering the metal with a hammer or slapper over the rounded part of the dolly. These dollies are smoothly finished to prevent damaging the material you are forming.

They're the same specialty straight T-dollies auto body shops and fabricators use to form and shape sheetmetal flanges and edges.

Features
