Description

Get ready to upgrade your setup with the all-new HAFCO Professional Series—built for workshops that mean business. Forget the flashy colours. The Nardo Grey and gloss black finish delivers a clean, professional look that works as hard as you do.

The HAFCO Professional Series 56" Tool Chest is a serious unit, designed to sit perfectly on the matching 56" roller cabinet for a seamless, integrated setup. Want to take it further? The matching hutch is available as an option, giving you a rear backing panel and a more functional workstation setup.

This isn't just about looks—it's built to work. The gas strut-assisted lid opens smoothly and holds firm, while the key lock keeps everything secure. Drawers run on smooth ball-bearing slides, with dual slides on larger drawers to handle heavier loads without flex. Soft push-to-close action and full-width opening latches make access easy from any position.

Inside, foam-lined drawers protect your tools and keep everything in place—no sliding, no damage, just a clean, organised workspace ready to go.

HAFCO Professional Series Tool Chest TPS-568C

Upgrade your workshop with the HAFCO Professional Series—where strength, function and clean design come together.
