HAFCO Professional Series Top Hutch TPS-56H

Description

Get ready for a toolbox upgrade with the all-new HAFCO Professional Series—built for workshops that demand both performance and a clean, professional look. Finished in bold Nardo Grey with gloss black accents, this range is all about working hard and looking sharp while doing it.

Available in sizes from 56" through to 72", you can build your setup your way—tool chest, roller cabinet, or go all out with the top hutch for a fully organised workstation.

The 56" Top Hutch is designed to sit perfectly on your tool chest, turning your bench into a practical, clutter-free workspace. The gas strut-assisted lid opens smoothly, while the key lock keeps everything secure when not in use.

Inside, the square pegboard backing and included accessories give you complete flexibility. A Large Shelf, spray can holders, screwdriver holders, bucket holder, hooks and prongs make it easy to organise pliers, hammers, chisels and all your everyday tools. The included buckets are ideal for nuts, bolts and small parts, keeping everything within reach.

Four power cord access holes let you run battery chargers, power tools or even a laptop neatly into the unit, keeping your setup powered and tidy.

It's a smart, all-in-one workstation that keeps your tools organised, protected and ready to go—then locks up securely at the end of the day.

Upgrade your workshop with the HAFCO Professional Series—where toughness meets a clean, professional finish.

TPS-56H DIMENSIONS - (WIDTH x DEPTH x HEIGHT)

Overall size:  1420 x 546 x 674 (mm)
