Dimensions

Description

Magnetic rest pads are used as a spacer or packer between the table surface and the workpiece plus can be used anywhere on the tables or with a fixture accessory. The design allows for use in any position on the welding table when your workpiece does not line up with one of the table or fixture holes giving you endless flexibility in your clamping tasks.

Features

- Use in conjunction with 12mm thick fixture elements
- CNC machined surfaces to ensure precision tolerances
- Burnished finish surface treatment to prevent rust
