Description

The Hafco pen mandrel set is used to hold small pen parts securely, enabling you to turn down to your desired shape & size.

Suitable for wood-turning lathes with a size 2 Morse taper (2MT) and including 5 bushes, this pen-making kit lets you fabricate your own custom biros - which make a fantastically unique and personalised gift idea for friends and family.

Features

- 2MT collet chuck body
- Ø6.35mm ER16 collet & collet nut
- 1 x Ø6.35mm x 195mm long shaft with thread
- 1 x 25mm brass knurled nut & 5 steel bushes
- Includes collet nut spanner
