

HAFCO-WOODMASTER DC-40

Dust Collector

HAFCO-WOODMASTER Dust Collector DC-40

Description

LPHV = Low Pressure High Volume System

The dust and shavings of LPHV extractors are sucked through the impeller fan blade and then the waste falls into the lower bag, the air being exhausted through the top filter bag, collecting some of the fine dust on the way. This type of extraction shifts huge volumes of air at low pressure and they are very efficient at removing bulk waste such from Planers, Thicknessers & Wood Lathes etc, hence some people call them chip collectors. The down fall with all LPHV dust collector systems is when you reduce the intake hose from 100mm to 32mm the air flow volume is affected dramatically.

Features

- 0.75kW (1HP) 240V motor
- 700cfm air flow suction
- Portable, on wheels
- 100mm(4") x single inlet
- Quick-action clamps
- 2 Micron Filter Bag
- MADE IN TAIWAN

Specifications

ORDER CODE	W407
MODEL	DC-40
Type	Dust Collector
Airflow (CFM)	700
LPHV - Low Pressure High Volume (Yes / No)	Yes
HPLV - High Pressure Low Volume (Yes / No)	No
Inlets / Diameter (No. / mm)	1 x Ø100
Outlets / Diameter (No. / mm)	~
Motor Power (kW / hp)	0.75 / 1
Voltage (V / amp)	240 / 10
Floor Space (W x D x H) (mm)	~
Nett Weight (kg)	40
